

Press the **Proj On.Off** button to turn on the projector in the room.
If you have finished teaching, please press this button to switch off the projector before you leave.

Select the **PC** button to use the networked AV desk computer or if you want to use the document camera, then choose the **DOC CAM** button.

Use the following buttons highlighted to control the volume of the sound in the lecture room:

- Press **Volume +** to increase the sound level.
- Press **Mute** to turn off the sound.
- Press **Volume -** to decrease the sound level.

Select the **BluRay** button to use the BluRay / DVD player.

If you are using a laptop, you now have the option to choose between using VGA or HDMI. Choose either the **Laptop VGA** or **Laptop HDMI** button depending on your connection requirements.

The remaining controls on the AMX panel are for controlling the options on the BluRay player, such as Eject, Stop, Play etc...
