

Windows 8 Surface RT - setup instructions

The headings in this document are the screens you will see during setup.

Turn the device on using the button located on the top right.

Your display language

- Select **English**
- Select **Next**

Licence terms

- Tick "I accept the licence terms for using windows"
- Select **Accept**

Personalise

- Choose a colour option of your choice (you can change this at a later date)
- PC name = We recommend the following: Eg. **RT-IN9999** (use your own IN number)
- Select **Next**

Wireless

- Select "Connect to a wireless network later"
- At this stage, the Windows RT devices **cannot** see Eduroam or wlvstaff during setup.

Settings

- Select "Use express settings"

Sign in to your PC

- Enter your **University IT account username** as the username eg. in9999
- Select **Finish**

Windows 8 will then configure itself for a few minutes and you will be presented with the Start screen
